Re: Request for South African support.

Mr. Ambassador,

Colonization has a way of normalizing the abnormal,

I am forwarding to you various of our political organizations correspondence trying to reach out to American institutions for their support of our cause to gain Black Voting Rights here in the Netherlands, and legally according to the Dutch constitution article 4, vote in elections held to elect members of the 2nd Chamber.

To correct a long time injustice, you must return to the first sin. And start all over anew.

The Dutch Kingdom, at the inception of colonial rule over their Caribbean colonies decided not to include such territories in their electoral process. Thus having the islands believe they were the others or outsiders and this was the most natural of things. Today some of us realize it wasn't and that like some other occupied nations, the local population and their interests were always cast aside, as unimportant to their own land.

For the past 70 years we have endured this injustice, being ruled while not allowed to vote / elect those who sit in governance over us, our country and our future.

Please allow me a moment of your time to make a verbal and in person request to your country for your support to our countries plight for their rights accorded them by virtue of the Dutch Constitution.

sincerely, Marco MARLIN BSc.

Voter segregation was eliminated by the USA in 1965, France allow all colonies to vote since 1946, Greenlanders vote in Danish elections since 1953. Why does the 2nd Chamber of the Netherlands maintain this racist practice of voter segregation.

The Arc of the Moral Universe Bends Toward JUSTICE.
