Re: Election Report request from the Expert Missions

Sirs,

This Dutch nationalist political organization P.A.S.O request your analytical expertise on the fairness, integrity and transparency of Dutch elections for members of the Second Chamber, which is the highest governing body of the Kingdom of the Netherlands.

Our claim; the Netherlands has systematically dis-allowed the largest section of their black citizens the right to vote. Hereby preventing their voices from being heard in elections, where the members of the highest governing body are elected. **Colonization has a way of normalizing the abnormal**, so therefore this racist system has been accepted as normal by the black Dutch population since its inception in 1954.

There come a time in every countries history, when one generation decides to stand up for their rights as citizens. That time has arrived for the Netherlands and we seek your expertise in order to reveal to the world that the Netherlands electoral process is flawed, has a racial tint to it and can be considered corrupt since voters of the 300.000 strong black Dutch population are refused their electoral rights ankered in the Kingdom constitution article(4).

The Dutch Kingdom consist of the mainland and the 6 islands in the Caribbean. At this moment the largest group of black Dutch citizens reside on the islands Aruba, Curacao & Sint Maarten. Article 4 of the Kingdom constitution clearly confer voting rights to each Dutch citizen of adult age. I can not express to you enough, the importance of your report in order to legitimize our peacefull struggle to attain the right to vote in the next elections. We look forward to close working relationship while providing all required information so you can complete a comprehensive report on the Netherlands electoral process which unjustly exclude the black vote.

sincerely, Marco MARLIN
Netherlands, july 15th 2026

Voter segregation was eliminated by the USA in 1965, France allow all colonies to vote since 1946, Greenlanders vote in Danish elections since 1953. Why does the 2nd Chamber of the Netherlands maintain this racist practice of **voter segregation**.

The Arc of the Moral Universe Bends Toward JUSTICE.
