Mr. Derrick Johnson, President and CEO, NAACP
4805 Mount Hope Drive, Baltimore MD 21215

PLEASE HELP US...

Mr. Johnson,

We've decided to reach out to the NAACP, as there is truly nowhere else we can imagine, that may provide us with a glimmer of hope, support, help or assistance. This request from our Dutch political movement the P.A.S.O. will seem to be a cry out of the past. Are we really requesting the NAACP step in, to help secure voting rights for black Dutch citizens today in 2026. How is this even a possible issue, in a European country that house the ICC International Criminal Court, and pride itself on justice issues.

Lincoln ended slavery in the US, little could he have imagined his action would reverberate throughout the world, and as a result all slaves worldwide would eventually be freed. Martin gave his " GIVE US THE BALLOT ", speech in 1957 which led to the civil rights act of July 2, 1964 . He too could not have imagined, his speech used as a protest chant to gain voting rights for black Dutch citizens of the Netherlands 70 years into the future.

Am asking that you take just one step out of the box Mr. Johnson, the NAACP assistance will increase the speed in which our organization, achieve the right to vote for the 300.000 strong, black Dutch citizen population of the Netherlands. Your support will help legitimize our struggle by giving it worldwide attention. I urge you to take this next step in the NAACP's evolution and step into the International arena, as the International Association for the Advancement of Colored People. The NAACP's moral conscience, integrity & principles must stand with the P.A.S.O. To hold the Kingdom of the Netherlands and the European Union accountable.

We look forward to a positive response

Sincerely, Marco MARLIN

Netherlands July 15, 2026

Voter segregation was eliminated by the USA in 1965, France allow all colonies to vote since 1946, Greenlanders vote in Danish elections since 1953. Why does the 2nd Chamber of the Netherlands maintain this racist practice of **voter segregation**.

The Arc of the Moral Universe Bends Toward JUSTICE.
